

For life's unexpected moments,
a beautiful, healing place...

Introducing our new Emergency Department.

It's an exciting time for both our hospital and you! We're completing construction on our new Emergency Department—which will be double the size to meet the needs of our growing communities for years to come.

Patient focused and pleasant. Spacious, comfortable waiting areas, meditation rooms and more—all with soothing colors and patterns to ease family and friends. There’s also a greeting area for patients and their families, staffed by a registrar who will help you get the attention you need as quickly as possible.

Inside the Emergency Department are multiple private patient treatment rooms, and dedicated pediatric, OB/ GYN and behavioral health rooms. The entire space is designed for quiet consultations and healing.

Loved ones can also enjoy our nourishment area, with an assortment of vending machines and a specially stocked refrigerator of Kosher items.

As high-tech as it is attractive. Each of our 19 new bays is equipped with state-of-the-art monitoring, nursing call systems and much more. In addition to a large nursing station, there are nursing “pods” (small desk areas) throughout the space, so caregivers can be close to their patients.

Scheduled to open in early 2013, be sure to watch for more news.
